

## Positioning Products That People Love

Proper wheelchair positioning is more than an issue of comfort and safety. By listening to users and seeking to understand their needs, we create extraordinary postural support solutions that enable them to achieve their full potential.

### For Wheelchair Users

When we design a Bodypoint product, we always keep your needs and desires at the forefront. We believe that with our highly-adjustable, elegant and durable products, you will be better equipped to reach your full potential.

Users have access to great information on our website including:

- Product instructions in multiple languages
- Information and guidelines on attachment options
- Accurate sizing guides
- User case studies and success stories
