

Positioning Products That People Love

Proper wheelchair positioning is more than an issue of comfort and safety. By listening to users and seeking to understand their needs, we create extraordinary postural support solutions that enable them to achieve their full potential.

For Dealers

Bodypoint designs and manufactures high-quality postural support products that customers love. From order placement and fulfillment to service and education, we make it easy and efficient to do business with us.

Bodypoint dealers enjoy the following benefits:

- Quick order turnaround with greater than 99% accuracy of fulfillment
- Easy access to product information online
- Product and pricing catalogs, with quick online quotes
- Discounts through buying group associations
- Friendly, knowledgeable customer service
- Convenient electronic billing
- Product warranty to protect your customers
- Product education to support your sales efforts
