Bodypoint Product Catalog

Check out our full line of products all in one, convenient catalog.

Application User Guides

Created by therapists, the Bodypoint User Guides are clinical 'cheat sheets.' These resources provide application based positioning solutions and information.

Pelvic Support

The pelvis is the key to postural alignment as it dictates the position of the trunk, head and extremities.

Anterior Trunk Support

The trunk is important to postural alignment and stability as it dictates the position of the head and upper extremities.

Lower Body Support

The long-term goals of good posture are; increased function, circulation, pressure relief and reduced demand on the muscles.

Brochures

Changing the Shape of Support

Choose the right trunk support for comfort, fit and function. This brochure compares our shoulder and chest harnesses to help you find the right product for your individual needs.
